

# I-View™ 2.0

the next generation  
3-in-1 contrast enhanced  
mammography  
imaging solution

III I-View™ 2.0  
Contrast Enhanced Imaging

**Contrast Enhanced Mammography.** Turn the invisible into the visible.

3in1\*

Accelerate reading time with comprehensive imaging using co-registered functional and morphological information.<sup>1-3</sup>

Increase diagnostic confidence with high sensitivity and specificity to help guide the clinical pathway from diagnosis to surgical management.<sup>4</sup>

Avoid a second contrast injection by using the co-registered CEM to guide Tomo biopsy with Affirm™ Breast Biopsy System.
